

5 Ways We Reduce Cost for Global Enterprises.

1. World Class Support

Our certified experts provide the dedicated **support** and **guidance** your team deserves.

We have **over 17 years'** experience as a Managed Service Provider (MSP).

24/7 Management & Support,
Upgrades, Patching, DR Rehearsals,
Admin-as-a-Service, Functional Services
plus End User Support.

Our Platform is trusted by organizations globally and is also **SOC 2 Type 2** and **AWS MSP Certified.**

2. Ability to Scale Up or Down as Needed

The continual optimization efforts from the iTMethods' team lead to progressive reduction in cloud costs related to the DevOps toolchain. Our Managed DevOps SaaS platform includes access to all the necessary infrastructure your organization needs.

This reduces the upfront and ongoing costs of maintaining on-premise infrastructure, allowing enterprises to scale up or down as needed.

>95%

of new digital workloads will be deployed on cloud-native platforms by **2025**.*

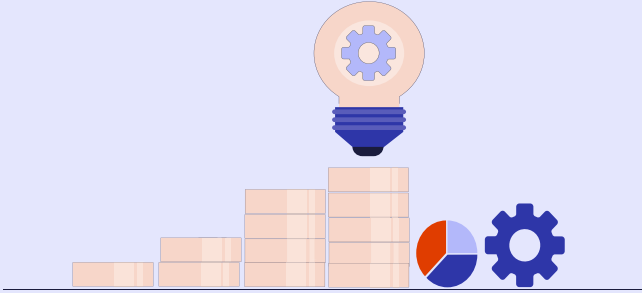

70%

of organizations are **overspending** on cloud services, due to a lack of a cloud cost optimization strategy.*

3. Re-alignment of Resources

Our expert managed services help enterprises implement and optimize their DevOps processes.

This can help reduce the need for in-house expertise, which can be expensive to hire and maintain.

40%

of devs reported spending up to

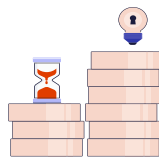

50% of their time

on toolchain maintenance and integration over the past year.*

4. Increased Efficiency

Our Managed DevOps SaaS platform can help increase the efficiency of your development and operations teams, by providing a range of tools and services that can automate tasks and streamline processes. This can help reduce the time and effort required to deliver software, ultimately reducing costs.

Did you know?

35%

of devs are releasing code **2x faster**, and

15%

release code between **3x and 5x faster** - when using a DevOps platform.*

5. All your DevOps Tools Supported on One Automated Platform

A graphic featuring the number '45+' in a large, bold, blue font. The '4' and '5' are connected, and a plus sign follows. Above the '4' and '5' are two gear icons, one blue and one light blue.

DEVOPS TOOLS SUPPORTED

Choose from an extensive catalog of **45+ DevOps tools** your teams already love and maximize their capabilities on our Managed DevOps SaaS Platform.
